REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present invention as describe in the summary of invention in the pre-appeal request date 7/24/2006 overcomes the prior art of record and the obvious combinations. Present invention claims a server with multiple website domain served from the same system and recording separate logs for each website using a interchangeable buffer pool. This differs from the cited prior art in that it is used for web domain and not other systems. Also it differs in that buffer pools are moved from domain to another domain as and the possibility of a single domain have multiple buffers is also differs from the cited prior art. Additionally buffers are requires to be consistently linked to the data structures. Also the environment of the buffer pools differs from other buffers system, which are not adapted to work in threaded web domain environments.

Applicant has deleted non-statutory subject matter from the specification. For the purpose of examination, the deletion of such embodiments is being treated as an explicit act to remove such embodiments from the scope of the claim.

For these reason the present invention over come the prior art of record and the obvious combinations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached Notice of references cited (if appropriate).
